

KN27000

Type EGP - An Immediate Response H.C.V. The new EGP/IR platform is a direct replacement for the 90554241

90054007

Type CR - Controlled Response H.C.V. Does not respond to short duration dynamic changes in axle position.

90554950

Type PR - Precision Response Height Control Valve with Dump Valve
Pilot Port 1/4" PTC All Other Ports 1/4" NPT

SRK 205

48100267 Adjustable Linkage Use with Type IR H.C.V. applications

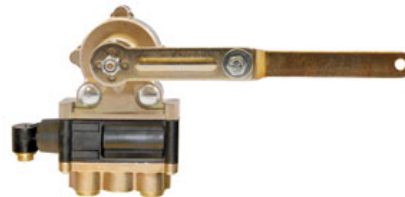

90555106

Type EGP - An Immediate Response H.C.V. with dump. The new EGP/IR platform is a direct replacement for the 90554271

90555353

PR Plus HCV with Normally Open Dump Valve, Volvo Replacement 90555355
5-Port Side Manifold
Pilot Port 1/4" PTC
All Other Ports 3/8" PTC

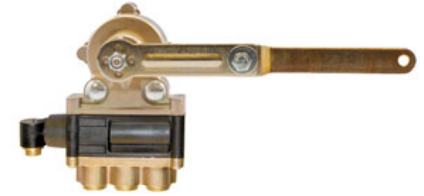

90555376

PR Plus HCV with Normally Open Dump Valve, Kenworth Replacement 90555143
2-Port Straight Manifold
Pilot Port 1/4" PTC
All Other Ports 3/8" PTC

SRK 168

48100225 Adjustable Link rod.

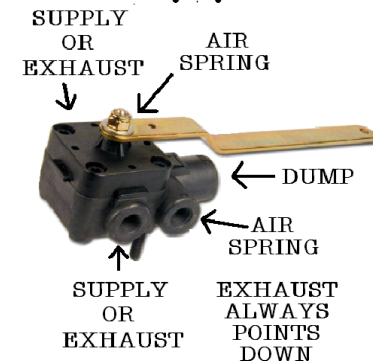

90555377

PR Plus HCV with Normally Open Dump Valve, Kenworth Replacement 90555145
3-Port Straight Manifold
Pilot Port 1/4" PTC
All Other Ports 3/8" PTC

VS227 / 60826-000

Type IR - Immediate Response H.C.V.

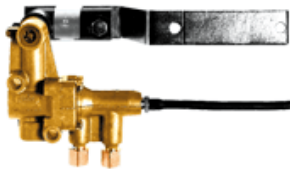

57977-000

Type IR - Immediate Response H.C.V. with dump valve

S-14187

Adjustable Bolted Linkage Assy.

E-9623

H450CE

Type CR - Controlled Response H.C.V.

E-9624

H00500C

Delay Type With dump valve

90554615

PILOT VALVE

Typically used to rapidly exhaust air suspensions. It is activated by applying pilot pressure

032195

Rapid Dump Air Suspension Valve.. Pilot operated and designed specifically for rapidly lowering truck air suspension systems.
